

New Beginnings International Ministries

19th Jan. 2023

We thank God for bringing all of us to 2023, I thank God for His tender love, mercy and care, He was so faithful to me and my family for all the past years and I know He is going to be the same even in this new year. Temptations, trials and tribulations attacked our house last year but I thank God who made us strong and firm to go through all trials, just like His word says in 1 Corinthians 10:13 “***no temptation has overtaken you, except what is common to mankind. And God is faithful; he will not let you be tempted beyond what you can bear. But when you are tempted, he will also provide a way out so that you can endure it.***” I therefore thank God for providing a way that enabled us to endure all our trials in the past year.

As a woman, a wife and a mother, I am here to thank all those whom the lord has touched their hearts, gave them passion, kindness, generosity, mercy, grace and above all love, to care and support women like me in Uganda, through New Beginnings International Ministries. We are indeed blessed to have you involved in this work, without you, we wouldn't have come this far.

Last year, Henry and I visited over forty pregnant women after receiving calls from them or from concerned citizens about some troubled pregnant woman. We never hesitated to visit and pray with them. Sometimes when we were in a fair financial state, we would carry for them some basic supplies like food, soap, baby clothes and Safe Delivery Mother's Kits. When visiting with these pregnant women, I realized we must continue praying harder so that God can bring forth more workmanship in His work to help alleviate the human suffering and hardships within our women communities. Women in our country are still backward and still carry little attention from men and government and this has caused all the misfortunes that women carry, that has left them overburdened.

On such grounds, it is the reason am writing today calling upon fellow women to rise up and fight for the rights of our less fortunate fellow women, women are dying every day due to delivery related issues, women are impregnated by some men who just leave them to suffer with the pregnancy and children and no one cares about it. Women are chased out of homes and apartments by men because they are pregnant and the man is not willing to stand with her. Women are left to stay with empty stomachs yet pregnant for days and no one cares about it. Most people live by the principal For God and my house.

Women, wives, mothers and women leaders out there, I am prayerfully requesting that we can join hands and save our fellow women. By saving them, we will be saving and protecting the lives of the unborn who may be in critical conditions of losing their lives. Please donate, please support and please visit us in Uganda, so we can together change minds and hearts for the better. We can make people understand the value of us women and babies. Babies don't have clothes, food covers and so on, so you can give or donate something that will make the baby smile. Her mother will be happy and strong to know that some woman or mother out there cares about me and my baby.

We work in close partnership with United for Life Foundation in Alabama, so please contact them for more information about the best and easiest way to extend your support and love to us here in Iganga, Uganda. Thank you, our dear partners, donors and friends, for standing with the women and babies at New Beginnings International Ministries, we pray that the Lord will bless you and your families and you will continue to bless more lives.

Yours Sincerely,

Joyce Akello
